It's not over, it's just beginning. This is where we find out if talking did any good or if we start giving them a taste of their own medicine.

This.

i am a peaceful man, but they have pushed me and others like me to this point where the only option left to right this injustice is violence.

Remember that they chose this path - like a home intruder chooses to enter an innocent victim's home - and when the innocent victim blows the intruder the fuck away, it was the intruders choice to go down that path - just like the election fraudsters (and more importantly those that enabled them) chose to do.

Do not pity them or show mercy - it is now or never to defend what is yours.

Each person to attempt to certify fraudulent votes should be met with physical removal TODAY. Fuck your 5-10 day extension. It's today.
